

## **ORIENTEERING**

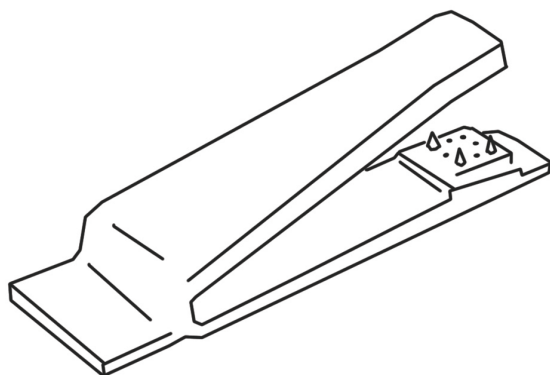

**We create an orienteering course at your venue just from a map - then you can see how many checkpoints you can find in the right order ahead of your other competitors! Great introduction for those who have never used a map before. Provides users with a new and exciting challenge.**

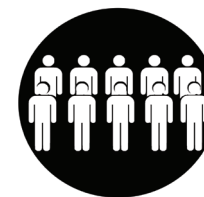

**A great addition to school or corporate activity days.**

**ORIENTEERING POINTS**

**PUNCHES**

**OPERATING DIMENSIONS:**

Any open space. Maps of chosen activity area need to be provided prior to the event so orienteering points can be plotted and maps and punch cards created.
